

Enterprise Invoicing & Refund Policy Guide

Document Reference: REF-BILL-2026 | Version: v3.0 | Verified: June 2026

1. Billing & Payment Protocols

All subscription plans are billed on a recurring monthly or annual basis. Invoices are generated automatically at the start of each billing cycle. Payment is due within 14 days of invoice receipt. Enterprise accounts can request Net-30 invoice terms subject to credit approval. Accepted payment methods include Credit Cards (Visa, MasterCard, Amex), Wire Transfer, and ACH.

2. Refund Policy Guidelines (Sensitive Actions)

Refunds can only be requested for subscription charges made within the last 14 calendar days. To request a refund, users must navigate to Billing Settings > Transactions and select 'Request Refund'. Standard refunds take 5-10 business days to process and return to the original payment method. Note: Refund actions are classified as financially sensitive and automatically trigger compliance reviews. Enterprise accounts require supervisor approval for any single refund transaction exceeding \$500. Subscriptions cancelled after 14 days are not eligible for pro-rated refunds but will remain active until the billing cycle ends.

3. Compliance & Account Closure

For security and auditing compliance, accounts in arrears for more than 45 days will be suspended. If you require full data deletion or GDPR-related account closure, please refer to the privacy settings or contact security@company.com directly.
